Quintron continually offers innovative products and provides resources that will instruct and aid each presenter with the tools necessary to be a success. Whether you're teaching in a classroom, running a faculty meeting or presenting at a hotel ballroom, the final impression you leave is only as good as the Audio Visual Systems you have at your disposal. Captivating your students or a boardroom full of colleagues is just one of the agenda items Quintron can assist you with.

Visual

Compelling presentations are possible on any

budget; there is no "best" projector for everyone, we will help you determine which features you require and what fits your budget.

Audio

Quintron can help you realize your specific audio desires whether it be

finding a unit with built-in stereo speakers or finding a speaker to fit an

above-the-ceiling tile install. We understand and work with an assortment of configurations to support various requirements.

Classroom

Interactive systems are the popular classroom favorites. Some offer the freedom to select the annotation software of your choice, walk up and interact with the unique plug-in-play design, mouse-like pens used directly on the screens and much more. There are many options to choose from for interactive systems that can be customized depending on your specific requirements.

Quintron can help you find a system to fit your needs as well as your budget.

Quintron can assist you in implementing the solution you need to create a strong sophisticated configuration to fit your needs. School districts are faced with increasing educational requirements and decreasing budgets. The pressure is on to deliver a better learning environment and better technology solutions for the money. Companies are faced with the ever shrinking budgets as the economy faces some challenging times, yet the need for putting your best foot forward never ceases. Quintron can facilitate your success in achieving these goals.

Quintron....When Failure Is Not An Option
