

Building Your School District's Technology Infrastructure.

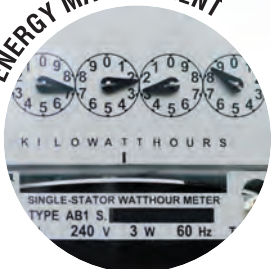

INFRASTRUCTURE

CCTV-AUDIO/VISUAL

ENERGY MANAGEMENT

Nothing is more important to our country's future than educating our next generation. But, building for your school district's success takes more than just cranes and bulldozers. The key to conquering the challenges that face our education system in the 21st century lies in advancing your technology infrastructure.

We're Quintron Systems, and critical national security projects are our specialty. Since 1970, we have provided high-technology solutions for some of our nation's most important programs. We have also applied these same skills toward state-of-the-art technology upgrades to major educational districts throughout California.

Get your district's technology infrastructure, CCTV-audio/visual and energy management solutions from one trusted, California-based source.

Quintron's Integrated Systems Division will install a system that works with your unique requirements and provides a complete and affordable, turn-key solution. No third party installation. No hassles. No mistakes.

Ready to start construction on your district's critical technology infrastructure? Give us a call today!
